Subject: WIOA ETPL -Request for Training Addition

Dear Wendi,

I am thrilled to be reaching out to you after watching your virtual event with CEI and a handful of conversations with Matt Thomsen about various initiatives.

One of the initiatives I am currently working is a deep dive into CSI's ETPL. I would like to submit a Software Development Bootcamp to the list; however, it does not meet the South Central Idaho top 150 jobs. I am submitting the following request due to the increase in remote opportunities for software developers nationwide.

I appreciate the consideration. Please let me know if the council requires additional information to include this training opportunity.

Name of Provider: Promineo Tech

Brief Description of Programs:

1. Back End Software Developer. (3K per student)- Completely online (combination of synchronous & asynchronous)
 - a. Skills and technologies include Java 1.8, Algorithms, OOP, Design Patterns, Unit Testing, SQL, DDL, DML, Database Concepts, JDBC, Spring Boot, Spring Data, REST, JPA, JWT, AWS, and more.
 - b. Duration 18 weeks Courses Introduction to Java Relational Databases with MySQL Web API Design with Spring Boot
2. Front End Software Developer (3K per student)- Completely online (combination of synchronous & asynchronous)
 - a. Skills and technologies include JavaScript, ES6, Algorithms, OOP, Design Patterns, Unit Testing, HTML, CSS, Bootstrap, JQuery, AJAX, Responsive Web Design, ReactJS, JSX, NPM, Redux, AWS, and more.
 - b. 18-week course

Promineo Tech Information:

- PT students obtain starting salaries ranging from \$45,000 to \$85,000 annually with an average starting salary of \$60,222/year.
- Currently have an 82% placement rate.
- Curriculum is driven by industry trend, demands, and validated by a curriculum advisory board consisting of industry leaders.
- Programs are career centered and every assignment, quiz, and project is built around helping students get, prepare, and pass interviews to be successful on the job.

National Facts:

- According to the [Harvard Business Review](#), by 2020 there will be 1 million more programming jobs than computer science graduates to fill those jobs.
- The [Bureau of Labor Statistics](#) states that jobs for software developers will grow 17% in the next decade, which is much faster than the national average for all occupations.
- Every industry needs software developers, and [Think Network Technologies](#) reports that 67% of computing jobs are outside of the traditional tech sector.
- [Burning Glass](#) reports that jobs requiring coding skills pay an average of \$22,000 per year more than jobs that don't.

Sincerely,

Kathleen Gladstone
