Career Technical Education

WHAT IS CAREER TECHNICAL EDUCATION?

Career Technical Education (CTE) programs provide hands-on learning opportunities aligned with careers right here in Idaho. CTE programs focus on applied learning and career readiness. Regardless of where you are in your life, we want you to have the confidence and skills you need to get an in-demand job. That means you have real skills and experience to offer an employer. And because CTE programs are aligned with regional and statewide labor needs, you'll be training to get a job in your field of study.

CTE BROCHURES

FIND YOUR PASSION

These courses use hands-on learning to teach real-world skills. Each program is connected to a Technical Advisory Committee made up of employers near Caldwell, connecting students to real opportunities like clubs, colleges, certifications, apprenticeships, and careers.

PROGRAMS

Agriculture

The Agricultural Education program focuses on the agrisciences such as Plant Science, Animal Science, and Agricultural Mechanics. Students also have the opportunity to participate in the FFA organization and expand their learning and leadership skills in the Agricultural Industry.

Auto

ASE certifications are available for students, allowing them to gain employment experience working as a general mechanic.

Business and Marketing

A business education is beneficial to any career. Students can earn dual credit opportunities through TVCC and Industry Certifications in Microsoft and Adobe.

Engineering

Students can earn dual credit through NNU and compete in Engineering and Robotics events through the Skills USA and Vex Robotics organizations.

Family and Consumer Science

Opportunities are available for students to explore careers in the tourism and hospitality industries. Students will also learn life skills such as sewing, cooking, and taking care of babies.

Health Occupations

Students have the opportunity to earn their Certified Nursing Assistant, Medical Assistant, AHA CPR, ARC FAST, and Pharmacy Technician certifications.

Welding

Students can become AWS certified and gain access to employment opportunities in the welding industry while getting the chance to compete in various welding events.

Programs

Criminal Justice

Our students will learn about the history of Law Enforcement, the Constitution, the Criminal Justice System, Ethics, and Professionalism. They will explore career opportunities within the Law Enforcement professions, as well as going on industry tours to learn more about a career in Law Enforcement, the Fire Department or Emergency Medical Services.

Family & Consumer Science

Our curriculum focuses on nutrition, food production, and human development, including competencies in social/ emotional skills, ethics, resiliency, work/life balance, and grit. Students can be prepared to thrive in their chosen career fields.

Graphic Design

Students learn and enhance their skills through project-based learning, internship opportunities, and a student-led large-format print shop. Anyone enrolled in this program, regardless of their starting skill level, has several opportunities to obtain industry-standard certifications that can help them in their future employment.

Hands-on Learning

-  Group Activities
-  Smart Technology
-  Extracurricular

Why CTE?

-  Preparing for College and Career
-  Job and Career Training
-  Paying for Education and Training

Caldwell High School

Agriculture

Learn *Real* world skills to solve
Real life problems!

"When I first came to high school, I did not know what the agricultural program had in store for me. It has changed my life and helped me find a lifelong passion in agriculture."

Abigail Cluff

Growing Leaders

Why Agriculture?

The Agricultural Education program at Caldwell Senior High School focuses on the agrisciences such as Plant Science, Animal Science, and Agricultural Mechanics. Students also have the opportunity to participate in the FFA organization and expand their learning and leadership skills in the Agricultural Industry.

Agriculture is the single largest contributor to Idaho's economy and will be for years to come. Have fun exploring the agriculture, plant, and animal industries!

Business & Marketing

Learn *Real* world skills to solve
Real life problems!

"The business program impacted me to think more strategically and approach problem-solving at a greater level, leading to new opportunities and personal growth."
- Devanie L. Galvan

Future Business Leaders

Business leaders change (and run) the world! At CHS, we offer a variety of classes to help you gain a solid understanding of how business works so that you can "change" the world. Business classes include Accounting, Business Law, Principles of Marketing, Principles of Management, Business Essentials, Marketing Economics, Sports and Entertainment Marketing, and Personal Business Finance. Our technology classes increase the productivity and creativity of our students and include Computer Applications and Graphic Design.

Why Business?

What to know

- ♦ Dual Credit opportunities are available through TVCC and Industry Certifications in Microsoft and Adobe. College credit and certifications are also available in our business classes. You can join the BPA student organization to gain additional leadership skills in business.

C.N.A. / Medical Assistant

Learn *Real* world skills to solve
Real life problems!

"This CTE program opened up so many amazing opportunities for me and my future. I was exposed to new social and personal skills, as well as being able to get in touch with my desire for helping others. The C.N.A. program has made that all happen as well as helping me obtain my certification to start my healthcare career." - Gabby Gonzalles-Elias

Leaders in Health

Why health sciences?

It's no secret that there is a shortage of healthcare workers in our nation. At CHS, we are doing our part to help by offering education in Nursing, Medical Assisting, and other health care occupations.

♦ Students can become certified and gain access to employment opportunities after graduation in the medical field as a Certified Nursing Assistant and/or Certified Medical Assistant.

Engineering

Learn *Real* world skills to solve
Real life problems!

"Engineering is one of the most incredible programs I've been in. It allows me to take the concepts I've learned in my other classes and apply them to the world and my own life."
Keira Ferro

Engineer your World

Why Engineering?

If you are passionate about something and want to make a difference, there is a way to do that with engineering! In engineering, you will learn the fundamentals of engineering technology, robotics engineering, electronics & automation, computer-aided drafting, and competitive robotics.

What to know

Did you know that CHS has an amazing competitive robotics program? Robotics has the potential to positively transform lives and work practices, raise efficiency and safety levels, and provide enhanced levels of service.

Family Consumer Science

Learn *Real* world skills to solve
Real life problems!

"Family Consumer Science has helped me learn skills I will use after high school," - Joel.

"Hospitality has shown me I can have a great job here in Caldwell," - Ariel.

Making a Difference

Why FCS?

In Family Consumer Science, you will learn life skills. You will also have the opportunity to participate in FCCLA (Family, Career and Community Leaders of America), where you will focus on a variety of youth concerns such as parenting, family relationships, substance abuse, nutrition, fitness, and more.

- ♦ Classes offered include Teen Living, Nutrition and Foods, Introduction to Hospitality Essentials, Tour Idaho, and Hospitality Services.

Pharmacy Technician

"I was unsure of this specific pathway when I first walked into this class but now I have never been happier to learn," Elsa Zamarripa.

Learn *Real* world skills to solve *Real* life problems!

"Going into this class with fear has only made me stronger knowing what great things are coming," Vanessa Torres.

Leaders in Health

Why health sciences?

A yearlong course designed to prepare senior-level students for entry-level employment as a Pharmacy Technician under the supervision of pharmacists in retail pharmacies, hospitals, and other settings. Successful completion of the course qualifies the student to take the National Health Association (NHA) Exam for the Certification of Pharmacy Technicians (ExCPT) and/or Pharmacy Technician Certifying Board (PTCB) certification exams. Students can also receive their AHA CPR and ARC FAST (First Aid for Severe Trauma) certifications.

Rehabilitation Services

Learn *Real* world skills to solve
Real life problems!

"I really enjoy the Rehabilitation Services course due to the fact I get to experience a lot of hands-on work with our athletic teams." - Julissa Caceres

Leaders in Health

Why health sciences?

It's no secret that there is a shortage of healthcare workers in our nation. At CHS, we are doing our part to help by offering education in Rehabilitation Services, Sports Medicine, and other healthcare occupations.

Rehabilitation Services provides an opportunity for students to experience a hands-on learning environment. Students take classroom learning and apply it during high school sporting events.
