

April 5 Meeting Survey Results

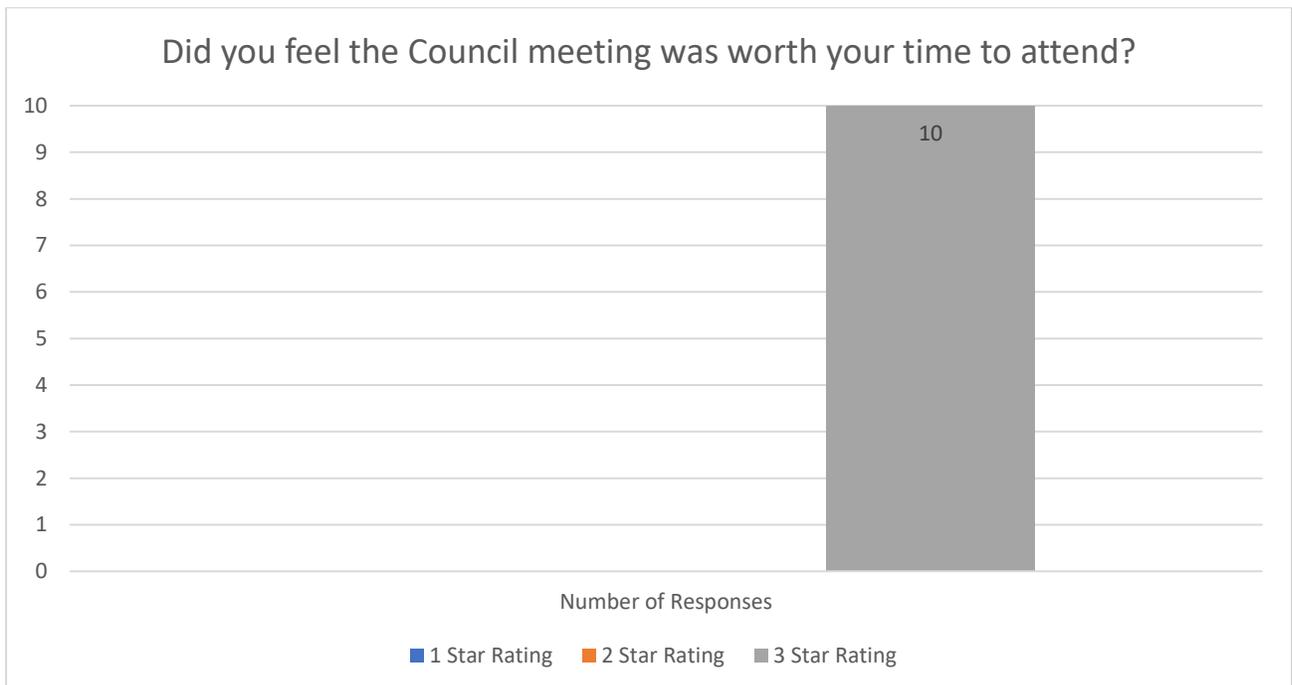

What did you think of the facility where the meeting was held (did you have enough room, did the layout work, etc.)?

Were the meals and refreshments adequate both in quality and quantity?

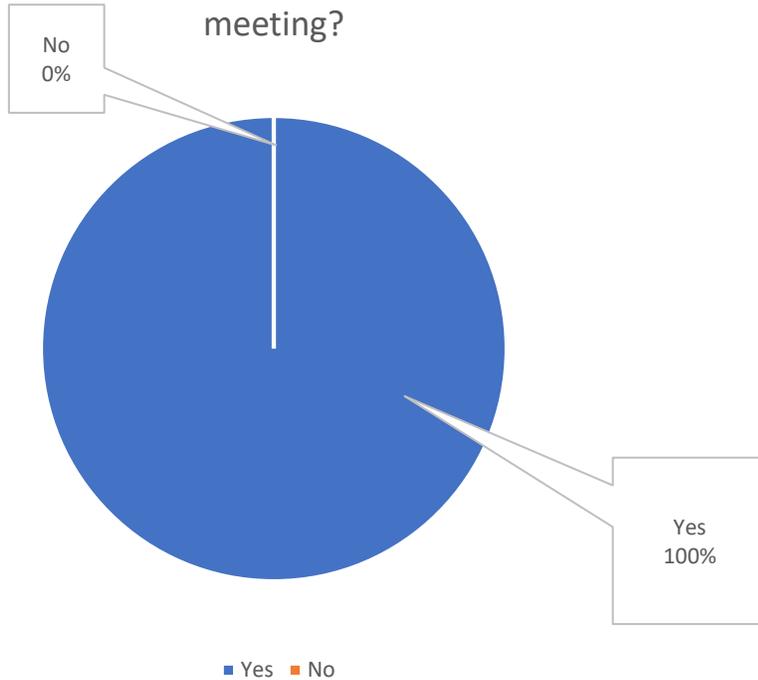

April 5 Meeting Survey Results

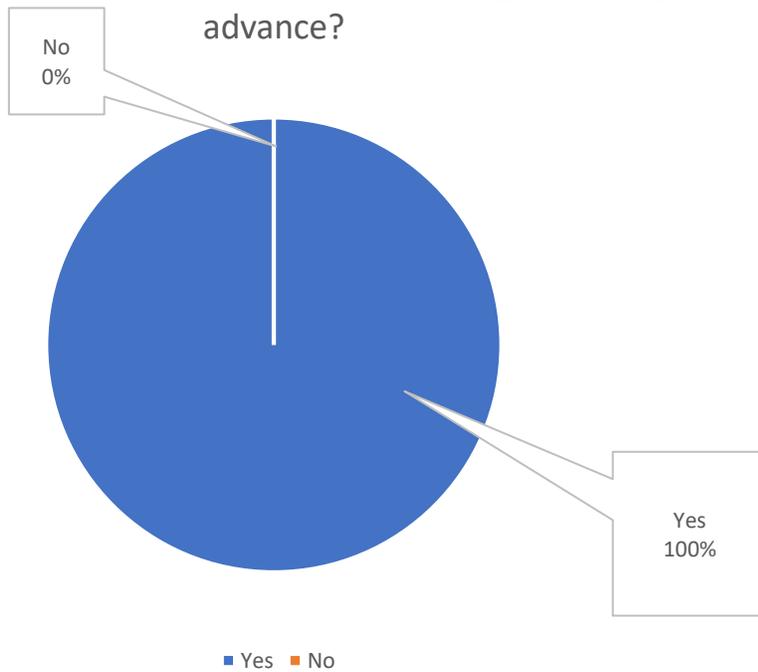

April 5 Meeting Survey Results

Did you have the resources you needed to participate in the meeting?

Did you receive the resources for the meeting far enough in advance?

Comments:

- Need more coffee in the afternoon.
- Meeting was well organized and productive. I particularly appreciated the education piece provided by Sam.
- Things are headed in the right direction. I do have a concern about meeting schedule. I had a conflict with IRSA and in most cases that isn't an issue, but there was a significant discussion relevant to CSI that I missed. If these continue to be scheduled on top of IRSA, I'll likely need to resign. I'm not sure SBOE has set the IRSA schedule for AY2019 as yet.
- I would prefer all resources in electronic format prior to the meeting. It would also be easier for me if the resource were displayed on the screen during the discussion. Please consider providing power for those who prefer e-resources and take notes on their device.
