

**ONLINE
IDAHO**

What Idaho Online is

What Idaho Online is not

✓ Idaho's system-like digital learning consortium

✗ A new, ninth, degree-granting institution

✓ A strategic investment in online course sharing

✗ An affront to on-ground instructional practices

✓ A sponsor of faculty-owned quality assurance of online courses and pedagogical practices

✗ A challenge to existing institutional authorities and processes

✓ The piloting of a next generation digital learning environment (NGDLE)

✗ Cannibalization of existing institutional tools, resources, and services

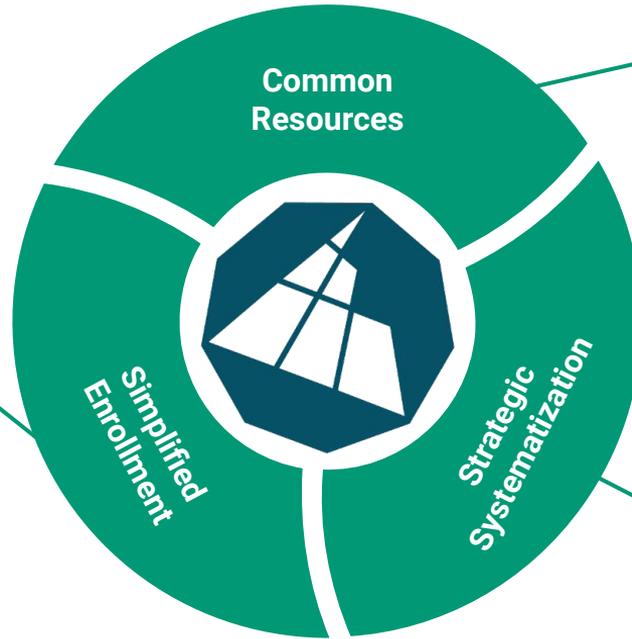

✓ A showcase of Idaho's academic excellence and leadership in digital learning

✗ Top-down, statewide mandates for the administration of online education in Idaho

CORE COMPONENTS

Simplified Enrollment

Providing an easy-to-use, cafeteria experience for students to explore online learning opportunities and enroll in courses that count toward valuable credentials

Common Resources

Aligning options for learning management, digital authoring, affordable course materials, faculty development, quality assurance, and more

Strategic Systematization

Exploring new opportunities in sharing online courses, degree pathways, business models, and even students

KEY BENEFITS

- Meet Idahoans where and how they live
- Promote an affordable Idaho education
- Provide more flexible degree options
- Improve resilience in higher education

GOING FURTHER TOGETHER

Current Online Certificates
(Undergraduate)

39+

Current Online Degree
Programs (All Levels)

136+

Current Online Specialty
Programs (Graduate)

30+

Current Online Degrees
and Credentials in Idaho

205+

KEY GOALS

1

**Increase access, affordability,
and completion**

2

**Map the future of online
learning in Idaho**
