STEP 4: Meet with Dept. of Labor Career Planner

A Career Planner with the Idaho Department of Labor (IDOL) will contact you, generally within 48 business hours or less. You can prepare for and speed up the process by having the following information ready when they contact you:

- ◆ Your social security number
- ◆ Your total annual household income: the number of family members in the household, and the total gross income of those family members
- ◆ Idaho Works registration: register at www.idahoworks.gov/job_seeker
 - Sign in and update if you already have an account OR click on "Create one now!"

The screenshot shows the IdahoWorks website. At the top, there's a navigation bar with "Log In" and links for "Job Seekers", "Employers", "Training Providers", and "Contact Us". The main content area has a "Welcome, Job Seeker!" message and a search bar with fields for "Keyword", "Location", and "Radius". Below the search bar, there are two columns for user actions. The left column is for existing users, with a "Sign in here:" button and a sign-in form with "Username" and "Password" fields. The right column is for new users, with a "Create one now!" button and an "OR create account here" button. The background of the page features a woman wearing safety glasses in a workshop setting.

STEP 5: Sign IDOL paperwork and enroll in courses

Once you've met with the IDOL Career Planner, they will send you three forms to electronically sign through Adobe Sign:

- ◆ An attestation form stating that the information in your Idaho Works Registration is complete and correct
- ◆ A "LAUNCH" agreement that says you have to work in Idaho for 12 months or agree to repay the funds
- ◆ A voucher to use toward 75-90% of the registration fees for the training(s) needed

***PLEASE NOTE:** You can tell the DOL career planner you want multiple trainings in your career pathway. Examples include: CNA, Patient Care Coordinator, and Mental Health First Aide; PLC 1 & 2 and Boiler/Kiln; CDL, forklift operator, and flagging; the full series of welding classes, etc.

When you've signed the required paperwork, you can start enrolling for your approved courses!

IDAHO LAUNCH

Where your skills meet their match.

Research Your Reset

Here, you can match your current skills to what employers across the state need and apply for training funds to build your skills. You may also discover hidden opportunities as you search hiring trends by region, research training opportunities, and connect with a career planner through the online application for training funds.

Behind the Scenes

We asked Idaho employers from every region of the state to complete a detailed survey to identify the most relevant skills that would help applicants to be successful in their industries. Then, we interviewed training providers to match the current course offerings to in-demand skills. And we have partnered with the Idaho Department of Labor and their career planners to provide help for job seekers looking to find a quick path to the training they need, at a price they can afford.
