IDAHO LAUNCH

Where your skills meet their match.

Research Your Reset

Here, you can find out what employers across the state need and apply for training funds to learn these in-demand skills. You may also discover hidden opportunities as you search hiring trends by region, research training opportunities, and connect with a career planner through the online application for training funds.

Behind the Scenes

We asked Idaho employers from every region of the state to complete a detailed survey to identify the most relevant skills that would help applicants to be successful in their industries. Then, we interviewed training providers to match the current course offerings to in-demand skills. We have partnered with the Idaho Department of Labor and their career planners to provide help for job seekers looking to find a quick path to the training they need, at a price they can afford.
