Grant Approvals

- ***Global Talent Innovation Grant**

Matthew Thomsen

Description: This project addresses Idaho's workforce shortage by empowering highly skilled immigrants to overcome employment barriers and enter professional fields. Focused on high-demand sectors such as Engineering, Finance, Accounting, IT, Economics, Graphic Design, Public Administration, Business, Health Care, and more, the initiative includes four core components: a paid internship program providing 22 participants with 200-hour work-based learning experiences; expansion of a partner network to connect employers and service providers; employer education through a new training curriculum; and tailored career coaching. The project will support 120 individuals—80 Global Talent participants and 40 employer partner staff—through internships, coaching, and collaborative engagement. Funding will cover stipends, staff time, and shared resources.

Requested Amount: \$250,000
